Chapter 1: Dominican Adult Vacations for Novices

Traveling to a foreign country can be stressful, particularly when you're traveling there for the first time. This is why we've wrote this article for those of you who are thinking of visiting the Dominican Republic, but who have not yet been there. For many men, a Dominican adult vacation is just what the doctor ordered. If you're like many guys, you're stressed out because of the economy, because your wife is getting on your nerves, or simply because you're looking for a way to "get away from it all." There is no better way of doing this than to simply leave the country.

If you're an American citizen, the good news is that the DR is close to you. If you just buy a ticket and hop on a plane, you will be there in a matter of hours. Another bonus of visiting the DR is that unlike Europe, the American dollar goes a lot farther down here. This means you can get more, a lot more, for less. This is especially true when it comes to a Dominican adult vacation. For instance, a vacation to Europe will run you more than \$4,000, and this doesn't include the girls. In contrast, a trip to the DR can run you little more than \$2,000, and this "does" include the girls.

In my opinion, the ladies are the most important aspect of the trip. Lets face it, many North American men are sexually frustrated. They live in a society where the women have become nothing more than cash registers with legs. Think about it. The U.S. has the highest divorce rate of any nation on the planet. I don't think a year goes by when we don't hear about some rich celebrity losing all or most of his money due to a divorce settlement. If you're like many men, you've become disillusioned with American women. I don't blame you, but there are solutions, because after all, every red blooded male wants to date hot women, right?

Why a Dominican Adult Vacation is the Ideal Solution

I personally believe that the Dominican Republic is one of the best destinations for men who are tired of BS dating games at home. I'm an American, and I've been on dates with women at home, and it is nothing short of disappointing. You take her to a nice restaurant, hold open the door, pull out the chair, pay for her meal, and engage her in intelligent conversation, and what do you get at the end of the date? Nothing. You end up home alone, wishing you had spent your money elsewhere. This money "should" have been applied toward a Dominican adult vacation.

You see, many Dominican women, particularly the ladies of Red Diamond Girls, know how to treat a man like a man. When you date them, they treat you more like a boyfriend than an ATM machine. They will give you a back massage, hold your hand while you walk on the beach, and provide a whole lot more in the bedroom.

For those of you reading this who are not familiar with the country, the Dominican Republic is an island nation which sits in the Caribbean. It is in close proximity to countries such as Jamaica, Puerto Rico, and Cuba, and it is world famous for its white sandy beaches and tropical weather. Additionally, this country is also famous for its Dominican Republic escorts. The women of the DR have a fiery sensual disposition that has led many men to name it their favorite vacation spot in the Caribbean.

While not as familiar to most Americans as Brazil, The DR is none the less a popular tourist destination, especially for Canadians. In recent years, more people are discovering the beauty that this country has to offer. One of the most beautiful aspects of the country is its people, and particularly its women. Without a doubt, Dominican Republic escorts are some of the most beautiful women in the world. Being of a Taino, African, and European mixture, these women are extremely exotic. Dominican women have an appearance which makes them distinct from other women in the region, including South Americans.

These lovely ladies come in a variety of different shades, and while some have pale skin, others have a dark Nubian complexion. Many of the women fall somewhere in between, having golden brown skin. Dominican Republic escorts are known for their prominent curves, and if you're a man who likes a women with a shapely rear end, then these ladies are a perfect fit. While some Dominican women are indeed petite, many of them have a curvaceous or athletic build.

How to Get Dominican Republic Escorts

To meet these ladies, you will need to travel to the country. The good news for Americans and Canadians is that the DR is just to the South in the Caribbean, meaning you can be there within 12 hours or less. This also means that travel costs are cheap. Two of the best online travel sites for flying to the DR are www.jetblue.com and www.hotwire.com. However, before you purchase your ticket (and your passport if you don't have one), you will first need to pick an escort agency.

Not all Dominican Republic escort agencies are created equal, and some are better than others. Of course, the best of all of them is Red Diamond Girls. We are the largest and most exclusive escort agency in the Caribbean. With more than 30 lovely ladies, you have a lot to choose from, and our ladies are extremely attractive. If you don't believe me, [click here](#) to be taken to our gallery page. I think you will be pleased with what you find there. The beauty of our ladies is only matched by the superior quality of our service. When it comes to taking your vacation to the DR, don't settle for second best. Red Diamond Girls is the top agency in the country, and one of the best in the world.

Documentation Requirements for the Dominican Republic

A vacation to the Dominican Republic requires the proper documentation. Before you call us and reserve the dates for your vacation, you need to make sure that you have the right documentation. It could be very frustrating on your end if you have set-up everything, only to find that you don't have the right documents for your travel date. Your money and time spent setting up the trip will all be for nothing. The right documentations for traveling to the Dominican Republic are not expensive. But they do require time as processing most of the documents can't be done overnight. If you acquire them in advance, you'll never have any problems with your travel plans.

Passport Requirements

A passport is a requirement if you're planning on traveling to the Dominican Republic. Technically, a passport is not necessarily a requirement to enter the country. But it is a requirement by the government for everyone who wants to travel outside their country of origin by air. Processing your passport could take a month or two so if you don't have one you'd better start the application process right now. You can process your application online through the official travel website of the US government. A tip: make two (2) photocopies of your passport. The first copy should be given to your close relative or friend and the other copy is for you. You don't have to bring your passport wherever you are. A clear photocopy should be more than enough.

Visa Requirements

A Visa is not a requirement for the Dominican Republic as long as you are staying in the country for less than 60 days. However, a tourist card is a requirement if you want to gain entrance. There are two ways to obtain a tourist card – the first is through a Dominican Republic consulate in your country and the second is when you arrive in the country. The tourist card will cost you no more and than \$10.00. In case you want to extend your stay, you can always ask permission from the immigration bureau of the country. But that doesn't mean you'll be imprisoned if you overstay here. Just expect monetary penalties when you opt to leave the country.

Identification in the Resorts

Getting into one of the listed resorts is easy since you've already paid in advance. Since the accommodation comes with free transfers from the airport to your hotel, expect that someone will take you from the airport to the hotel. Identifying our services is very easy. Many agencies in the Dominican Republic will dispatch a driver with your name so that you can identify them.

Although this is a standard service, we here at RDG like to raise things up a notch. Aside from the driver, your chosen companion during your stay will also be there to meet you. It's a soothing experience for our visitors since their enjoyment with their chosen companion starts as soon as they arrive in the country. Documentation is always a requirement to gain entrance into any foreign country. Make sure that you've obtained the said requirements to prevent any future problems. With the right documentation, you can concentrate on enjoying your stay with your companion.

Chapter 2: Dominican Adult Travel Basics

The Dominican Republic is undoubtedly one of the best countries to visit for a great adult-themed

summer vacation. Located in the Caribbean; tourists from around the world visit the Dominican Republic to experience the sand, the waters and the remarkable accommodation of the Dominican adult resorts in the country. However, depending on where you live, visiting the country can be considered expensive.

The warm accommodation and activities in the country often come at a price. This is especially true if you're not aware of how to save on your vacation. Oftentimes, adult-themed vacations are often seen as being very expensive since it's a highly personal type of vacation. However, this should not be the case if you know where to look. There are a few tricks you can use to save on your travel expenses while having that authentic adult vacation in the Dominican Republic.

Extensive Research

This proven trick is still applicable even today. Never be hasty in booking your reservations online or in your local travel agency. Visit as many travel agencies as possible so that you can compare rates and get the best service possible. Even if a travel agency claims they offer the best rates available, you should still compare rates from different websites. Do take note of the terms and conditions of travel agencies, especially online. The asterisk (*) that some travel websites add in their offer could mean a very expensive addition.

Choosing the Right Dominican Adult Resort

Getting into the country at an affordable rate will solve only half of the problems. The next challenge you would face is on how to book the right Dominican resort. You have to admit that this type of resort is a little bit difficult to find since this is not your normal vacation. But that doesn't mean they have to be expensive. Although they could cost more than most vacations, this doesn't mean spending thousands of dollars more. A good tip I got a few months ago from a friend who just finished his adult themed vacation in the Dominican Republic is to get in touch with agencies that offer authentic Dominican Republic women.

Some agencies only feature European women, which makes the trip very expensive. Since European women have to travel to this country, their expenses are covered by the agency, which is handed down to their customers. If you select a Dominican adult resort that features real Dominican women, you'll practically end up paying for accommodation only.

The Right Airport

It's also important to check your airport destination. Some of the Dominican adult resorts are closer to smaller airports than to the country's international airport. Although you'll be spending a little bit more in your flight to smaller airports, they could save you hundreds of dollars since you don't have to hail a taxi or experience inconvenience in paying for land travel. Always be smart when selecting your flights to the DR. Through proper planning and research, you're assured of savings while having fun during your stay.

Each year millions of people travel to the Caribbean looking for love, adventure, and an overall good time. While some find what they're looking for, others are not so fortunate. Taking erotic vacations Dominican can be a wonderful experience, but it can also be a nightmare depending on what you do and what you know. As with anything, a little bit of knowledge can go a long way. The first step in getting the most out of your trip to the DR is to take the time to pick a high quality agency. When many men travel there, they choose to look for low quality street girls.

While these girls may seem easy on your wallet at first, the men who hire them are really selling themselves short. Many of these girls can be real problematic, and some tourists have come home with some horrible stories to tell. The reason these people suffer is because they choose to cut corners with excellence. Red Diamond Girls is an agency which is designed to offer upscale companionship for its clients. We don't believe in cutting corners with excellence. We believe in offering high quality services that are world class in scope. Many of the men who have used our service have become repeat clients, visiting at least once each year.

When you take [erotic vacations Dominican](#), you should make it your purpose to get the best you can afford. When it comes to escorts, this is especially true. Why spend a few hours with a low quality girl, in a seedy environment, when you can spend days with our ladies? The second thing that you can do to dramatically enhance the quality of your vacation is to take the time to learn more about the culture of the country you're traveling to. Unfortunately, many of the people who travel to the DR are arrogant as well as ignorant. They don't take the time to learn the customs or pick up Spanish phrases prior to the trip, and then they wonder why they don't have a good time.

Once You Appreciate the Culture of a Country, The Experiences You Will Have There Can't be Described in Words

Unlike other agencies in the country, the women of Red Diamond Girls are highly intelligent. Some of our girls are college students, and this means that you can get to enjoy their minds as well as their bodies. Our service is designed to be more than the typical run of the mill escort service. We want our clients to enjoy a true level of companionship with our girls, where they get to spend lots of time with them. It is for this reason that so many of the men who use our service become repeat clients. Few escort agencies in the world can offer this level of interaction.

While each of our girls knows English to one degree or another, being able to communicate with them in Spanish gives you a huge advantage. Even if your Spanish is broken, just attempting to communicate with them in their language conveys a strong message, that you're an intellectual man who is interested in their culture, and this will impress them a great deal. While knowing Spanish isn't mandatory, being able to speak it is like adding icing to a well baked cake, and will add a higher dimension to your erotic vacations Dominican.

Mama Juana - Enjoy this Ancient Aphrodisiac With Our Dominican Escorts

When many people take adult vacations to the Dominican Republic, they make use of synthetic sexual enhancement products such as Viagra or Cialis. These products are marketed by multi-billion dollar pharmaceutical companies who spend huge sums of money both on development and advertising. However, not only are these sexual enhancement products overpriced, but like any synthetic medication, they also come with side effects. For instance, just a few of the side effects that you may experience when taking Viagra or Cialis include head aches, nasal congestion, blurred vision, and hearing loss. While everyone wants to enjoy their vacation with Dominican escorts, it is hard to enjoy your trip if you are suffering from a cocktail of side effects.

Many people are quick to spend large amounts of money on synthetic products which cause side effects, without taking the time to give mother nature a try. When planning your next adult vacation to the Dominican Republic, before going out to spend a bunch of money on Viagra or Cialis, you may

want to consider an ancient drink created in the Dominican Republic which is said to be an aphrodisiac, a drink which the locals call "Mama Juana." What is Mama Juana? It is a drink which is said to have a taste which is similar to port wine. The original Mama Juana drink should have a color which is dark red. The drink is created by giving rum, honey, and red wine the time to soak inside a bottle that has been filled with herbs along with tree bark. Perhaps one of the most amazing things about Mama Juana is its age: this drink is one of the oldest in the world, having been created 4,000 years ago by the Taino Indians.

Not only is this drink said to increase the sexual desire of men, but it can also do the same for women as well. Mama Juana is made with slightly different ingredients depending on the area of the DR where it is produced, but they all come with some of the following ingredients: Basil, Bohuco, Anamu, Caro, and Maguey leaves. The Dominicans are very secretive when it comes to the composition of this drink, and they will not reveal the exact ingredients that are used in its creation. In an interesting note, wrestler John Layfield has created a U.S.

based company which also offers a drink based on Mama Juana, but it is unknown whether or not this drink has the same effects as the original. We here at RDG recommend that you drink the original when visiting the country. The six resorts featured by Red Diamond Girls all offer this drink to our patrons.

As with any drink which is said to be an aphrodisiac, you may be wondering whether or not Mama Juana is the real deal. When you consider the age of the drink, as well as the ingredients it contains, there is no doubt that it has health benefits. Basil, one of the chief ingredients, is known for offering a bunch of health benefits, including anti-cancer, anti-viral, and anti-microbial properties. The other ingredients also have health benefits as well. This drink, combined with a healthy and active life style which includes regular exercise, should ensure that you have little trouble enjoying one of our Dominican escorts during your stay in the country. Why bother with synthetic products, when you can drink something with all natural ingredients?

While there are many destinations in Latin America and the Caribbean for those who are looking for sexy hot girls, the Dominican Republic has built up quite a reputation. With its sandy beaches, tropical climate, and government stability, the country attracts tourists from all over the world, many of whom are traveling there for Latina adult vacations. What does this type of vacation entail? Well as the name implies, it is a vacation where you get to spend much, if not all of your time with beautiful sexy Latinas. One factor which separates the Dominican Republic from the other nations in Latin America and the Caribbean is the DR booty.

Put quite simply, Dominican women have some of the best rear ends in the western hemisphere. While most people are familiar with the famous Brazilian bubble butt, the Dominican Republic is off the beaten track in comparison to Brazil, and this makes it very attractive for those foreigners who are looking for a fun spot. I've traveled to the DR, and I can tell you first hand that some of the things they say about Dominican women are true. When I was with my lady of choice, I would just watch her rear end in awe as she walked around the room naked. One thing that I love about women who have bubble butts is the "Jello Effect" that their rear ends make when they walk.

Like Jello, their rear ends bounce around from side-to-side, and up and down. It is a truly mind blowing site to behold. Another thing that makes taking a Latina adult vacation in the DR distinct from other nations is the variety of women that you can find there in terms of body type and complexion. Because Dominican women have a heavy African mix, many of them have a beautiful dark complexion. While some are as light as African American actress Halle Berry, others are dark and beautiful like Angela

Basset. Other Dominican women, despite having a strong African mix, have a more Latina look to them. Regardless of what you like, with the Red Diamond Girls escort agency, you will be sure to find it.

We have more than forty beautiful women, and all come in various shades and body types. No matter what you're looking for, with us you can find it. If you like your women athletic, as I do, then we feature these girls. If you like bubble butts, as I do, you will find that virtually all of our girls have this. If you like your women dark, as I do, we have this as well. RDG is the most prestigious escort agency in the country, and it is designed for men who are looking for excellence, and who are willing to pay more for quality.

Chapter 3: Sexy Dominican Girls

Before you hop on a plane to the DR to hook up with gorgeous Dominican women, there are a number of key factors that you will want to keep in mind. Understanding these things can mean the difference between the trip of a lifetime, or your worst nightmares come true. First off, while there are indeed street girls in this country which you can hire for pennies on the dollar, there is a dark side to the experiences you will have with them. Many of these girls aren't clean, and because of the low prices they charge, just about anyone can afford them. This means they tend to have a high volume of customers, which also means there is a high probability they will catch an STD, if they don't already have one.

Another thing that you will want to keep in mind is that many of these girls are desperate. They don't have many career options available to them and they may even have mouths to feed at home. Therefore, they will do many things to survive, including things that most women would find to be deplorable. Therefore, if you pay these Dominican women rock bottom prices in order to have sex with them, at rates that you know no woman in your home country would dare accept, understand that this is a form of exploitation. Many of these women have grown to hate men.

They hate them because of the way they are treated. Not only do many foreigners exploit these local women by paying them pocket lint for their services, but they also take things a step further by abusing them. I've heard of the many horror stories, and what makes things worse is that in some parts of the country, there is no way for foreigners to be prosecuted for their crimes, since they are given a "special" status because they are tourists. This has led to even more rampant corruption. This is also why our agency was formed. We were determined to create an upscale adult entertainment service which is free of the many problems that are prevalent in this industry.

The point that I'm trying to make in this article is that those who are reading this, who are thinking of visiting the Dominican Republic, will not want to become mongers. If you haven't been there yet, there is a good chance that you've run across men on the Internet who have been, and perhaps they've bragged to you about the low prices they paid the girls and the things the Dominican girls did. Perhaps they even offered you the chance to go there with them. My advice to you is to be a better man than this. Hold yourself to a higher standard of quality. Never settle for second, third, fourth, or fifth. Become the type of man who only aims for the best. Yes, our prices are much higher than the standard service here, but there is a very good reason for this.

Going to the Dominican Republic for an adult vacation can mean so many things. This is not your

normal vacation wherein you go to the scenic spots and just enjoy the sun and beautiful waters of the country. In an adult vacation, you'll always be with a companion that will give you more than just a simple acquaintance. The chance of intimate contact with your companion is not only possible, but guaranteed. However, it is important for you to remember that your partner has certain expectations that you should consider. These expectations could greatly dictate your experience since you'll be able to please your companion.

Her Expectations

As soon as you arrive at the airport, your companion will be meeting you and introducing you to the great places in the city. Even though she is obliged to do this, you should show appreciation for what she does so that she will be receptive to your requests. Above everything else, be a gentleman. There are many things that you can do to prove you are indeed a gentleman. A gift or two once you meet will be greatly appreciated. By helping her out when sitting down, opening the door or simply saying "please" will impress her greatly. Also remember that the Dominican Republic girls can be shy but they are not hesitant to be with you. Always lead the way on what you want to do. She will go with you without any problems. By leading the way while being a gentleman, you can surely gain the affection of your companion.

What You Should Expect

It's always important to set the right expectations for this type of vacation. You could become very frustrated if your expectations are not met, which could easily ruin your trip. Remember that an adult vacation means more than just spending your time with her in the bedroom. You will always be with your companion but there are other things that you can enjoy besides intimacy. For example, you could be out snorkeling, swimming on the beach, or dancing. These activities are still enjoyable as you are always with your companion. Remember that this is still a "vacation" which means you should be doing things just like with a normal vacation.

If you've never been with a girl from the Dominican Republic, you'll be surprised at how intimate she can get. They are very sweet, accommodating and will help you in anyway they can. Although your companionship is only temporary, there is a small bond that is instantly created as soon as you meet your companion. Through this bond, you can be as intimate as you want to be and they are very receptive to intimacy. An adult vacation with a Dominican Republic escort can be an unforgettable experience. Aside from the expectations of intimacy, your escort will always be there for you. Be a gentleman and always have fun with your companion as you will be rewarded.

The Dominican Republic is considered one of the best countries in the Caribbean for an adult vacation. Aside from its location, the locals are generally hospitable and very helpful to tourists since tourism is a substantial source of income. If you're here for an adult vacation, you will want to have an intimate experience with one of our sensual companions. However, you should remember that no country is perfect and you could end up in trouble in the Dominican Republic if you're not careful. No matter what country you travel to, you must take the proper precautions, especially if you're a tourist. When you're not familiar with a new location, getting in trouble is very easy.

Remembering the Basics

The basic rule on safety when in a foreign country applies anywhere, which includes Dominican Republic. For example, be careful where you travel at night. While the Dominican Republic has a reputation for being a very safe country, like any nation, there are good areas and bad areas. Stay away

from the bad areas, especially at night. Showing off your gadgets, jewelry and cash in public only attracts unwanted attention from bad elements. It is also best to remain with your companion at all times. She is your only source of information when you're not on a resort, and her information on the safe areas of the city will prove to be a valuable component of your stay.

Getting Intimate

Becoming intimate with your companion will always happen during your adult vacation. Your sexy Dominican companion will certainly provide you with a great time that will be very memorable. At the same time, protection during intimacy is not optional. While we test our ladies regularly, there is no way for us to know whether or not you're STD free. Although your piece of mind should always be a prerogative, with protection, you can enjoy your intimacy with almost no limitations.

Staying Connected

A great tool in terms of protection in the Dominican Republic is a mobile phone. You can get a decent signal almost anywhere in the country, which can help you get in touch with your companion or resort. You can ask your current mobile phone provider if they cover the Dominican Republic, but the rates are often expensive since every call would be considered an international one. Rent a mobile phone so that you can call your hotel anytime if you think you're in an unfamiliar area. There are affordable cards that you can purchase in many stores here and our girls carry a mobile phone with them at all times.

Prevention Instead of Reactions

It is important to observe these preventive measures instead of just reacting to trouble. A single undesirable event can ruin your entire vacation and you might lose valuables along the way. Even with a companion, your mood might not be focused on intimacy because of a traumatic experience. Although you don't have to be paranoid in the Dominican Republic, be observant.

What is it about DR ladies that makes them so sexy? Why is it that each year, hundreds of thousands of men travel thousands of miles away from home just to be with these lovely ladies? While there is no one answer to this question, I will explore it as much as possible in this article. One thing that I think we can all agree on is that the DR is a hot spot for men looking for beautiful women. In fact, even radio commentator Rush Limbaugh was busted at an airport for carrying Viagra, and can you guess what country he was coming from? If you guessed the DR, you guessed right.

One reason why Dominican Republic girls are so popular with American and Canadian men has a lot to do with the problems that are prevalent in the U.S. and Canada. In a nutshell, both American and Canadian women, like Western women in general, are very liberal. In my opinion, and the opinion of many men, American and Canadian women have lost much of the feminine attributes which would normally make them a good match. In our society, sex is seen as being a privilege, a carrot that women dangle above the head of the men who are in relationships with them.

We live in a society where many women seek to be "equal" to men. While I agree that women should have equal pay and the ability to vote and things like this, women are not men. They are the opposite of men. If you want to get philosophical about it, women are Yin and men are Yang. They complement each other, and while they are equal, they are also opposite.

Unfortunately, in both American and Canadian society, a lot of men are becoming more feminine and

women are becoming more masculine. This is very problematic. It is also why many American men are looking elsewhere for relationships. This is one reason why Dominican Republic girls have become so popular.

Dominican Republic Girls versus American and Canadian Women

In the Dominican Republic, as well as other Latin and South American countries, the women play a much more traditional role in their society. These ladies thrive on being women, and they have no desire to be like men. While they demand rights just like any woman should, as a group, they don't try to match men in terms of machismo. For Latin women, being unable to satisfy their men in bed is very humiliating. To lose your man to another woman because you could not satisfy him is one of the worst things that can happen to you. Therefore, many Latin women make it their habit to be good in bed.

Dominican culture, like Brazilian culture, places a heavy emphasis on dance. The Dominican Republic is one of the most dance oriented countries in the world, and it is said that Dominicans will love you if you can dance, even if you can't speak a lick of Spanish. Like Brazilian women, Dominican Republic girls are known for their sensual and erotic dancing. Of course, there is a natural connection between one's ability to dance and their sexual prowess. This combined with their natural feminine appeal and exotic looks, make Dominican women irresistible to many men.

The Dominican Republic is one of the few countries in the world that offers an amazing tropical vacation experience. Miles and miles of fine white sand coupled with seemingly endless tropical weather has made the DR an ideal vacation destination. When you combine this with the warm accommodation that Dominican Republic women can provide, this adds a special "spice" to the trip. If you want to add some flavor to your vacation in this beautiful country, you should consider going for an adult themed trip.

This truly exotic experience will take you to some of the most beautiful places in the country while being pampered by beautiful local women. With their authentic girlfriend experience, virtually everything you could ask for during your stay in the Caribbean can be fulfilled.

Having an authentic adult Dominican Republic vacation means you should immerse yourself in the local culture. You should eat local food, stay at local hotels, and spend your time with "local" women. As already indicated, the warmth of the people here towards the tourists has made this country one of the most popular tourist destinations in the Caribbean. To experience a truly amazing adult vacation, you should spend time with "real" Dominican Republic women.

I say "real" because there are agencies you can find online and in the country that only offer European girls. For some reason, these agencies feel that they would attract more clients because they are offering European women, who tend to have lighter skin when compared to the Dominican girls. I don't have anything against Europeans as part of the industry but if you're looking for a memorable vacation, you should go with "real" Dominican Republic women. The agencies in the DR that choose to only hire European girls appear to be practicing a form of discrimination.

When you hire real Dominican Republic escorts to be part of your adult vacation, you'll definitely experience the best that the country has to offer in terms of accommodation. Unfortunately, many escort agencies don't realize this, and only choose to offer European girls for their adult entertainment services. The very idea that fairer skinned women could be better entertainers when compared to Dominican girls is ridiculous. Here at RDG, we take pride in our women, and we are the first Dominican agency to promote and celebrate the beauty of not just Dominican girls, but all women of

color around the world.

Why Are There So Many European Escorts in the DR?

Good question. The simple answer to this is that most of the escort agencies in the DR who feature European women purchased them as slaves from conventions in Europe. Most of these girls come from poor Eastern European countries, and the agencies will pay their families between \$7,000 to \$12,000 a year to keep them with the agency. When you consider the fact that many of these agencies charge \$5,000+ for a week vacation, it is easy to see how this is profitable, as they make their money back in short order.

While most of these agencies will never admit it, they are involved in the International sex slave trade. Documentaries have been made which talk about the "white slavery" that goes on in Eastern Europe, and these agencies have a hand in it. This is something you should remember if you decide to use one of these agencies during your trips to the DR. What makes the situation worse is that these girls are paid only peanuts when compared to the money the agency owners rake in. Here at RDG, we don't have to resort to buying sex slaves from Europe in order to promote our service. We feature local girls, and under no circumstances were any of them forced to join our agency. Unlike the European girls, they "want" to be in this business, and this means that there is a big difference between the services they will offer you, and the services the European girls will offer.

There are only a few quality agencies in the DR that feature "real" Dominican girls, and we're one of them. This agency is dedicated to two things: making sure you're comfortable during your vacation and providing you with authentic Dominican girls. Real Dominican ladies are employed here and they'll be more than willing to provide their clients with the best vacation experience they'll ever have. By using our service, you'll experience first hand why Dominican women are some of the hottest in the world.

Chapter 4: Places to See and Things to do During Your Vacation

La Romana is one of the cities in the Dominican Republic that offers a complete experience for everyone, especially for those who want to experience a great adult themed vacation. Located in the south-east area of the country, La Romana features miles and miles of beautiful white sandy beach along with resorts that could easily rival the best in the country. In this city, you'll find one of our featured resorts if you want to have an adult-themed vacation. Getting to La Romana is very easy since the city has an airport. But other airports, such as the country's international airport are still accessible from the city.

Getting Around

Dressing Up

It's always important to be comfortable in Dominican Republic. As a tropical country, the temperature could get high really fast during the day and even at night, and even though you should be as comfortable as possible, the nightlife in the Dominican Republic suggests that you wear casual clothing. Here's how you will know what to wear. If the bar you're visiting with your companion is within the beach, you can visit the bar with flip-flops. On that other hand, you should wear shoes with your casual wear when visiting bars in the city area.

Controlling Drinks

It's always a bad idea to drink too much during your date. Binge drinking will not only affect your thinking but your actions as well. Too much drinking can also affect your appeal. That means drinking too much will really provide negative feedback from your companion. Although your companion will still be obliged to be with you, she may never give the same response to your actions after seeing you drink too much. In the Dominican Republic, beer is the most popular alcoholic beverage. This might work to your advantage of controlling your drinks so it is best to drink responsibly before you get into any kind of trouble.

Dancing
